

## MSCA TROPHY PRESENTATION DAY 28/02/2016

The annual MSCA Award Presentations day at Mt Barker was once again an enjoyable and successful day for our club. While the day mainly involves the sector of our club that is predominantly focused on motor sport, it was nevertheless great to see a good number of members who were there simply to enjoy the day - and of course to offer their support and congratulations to the trophy winners.

The day commenced with breakfast at Mylor, followed by a leisurely drive to the Mt Barker. A perfect late summer's day for a top down drive through the leafy Adelaide hills.

The tall gums at the oval provided a shady and picturesque environment for the clubs represented to both display their vehicles and set up their chairs for a picnic lunch.

There are prizes for the "best display" by the various clubs represented with a separate prize for the car that judges (one from each club) choose as their favourite. Once again, the best club display went to the MG Car Club of SA with the Best Car award going to a very nice Alfa GTV. All well deserved.

As a club in which the greater percentage of us are not involved with motor sport, it's easy for us to underestimate the outstanding contribution that a number of dedicated enthusiasts make in representing the MX5 Club of SA in Supersprints, Hill Climbs and Motorkhanas etc. MX5's are rare in that they can successfully (and relatively inexpensively) compete in mostly unmodified form - while still being driven to and from events. More MX5's are campaigned throughout the world than any other single make of car and once again the proof of "why" became obvious when trophies were presented.

Congratulations Club members:

**Garren Harrell - Sprint Champion**  
**Ian Duncan - Winner Class G**  
**Marque Le Maistre - Class H**

Well done guys. You and your fabulous MX5's are all champions!!
